@mutyauvyudavid@gmail.com

Makadara, Nairobi - Kenya

EXPERIENCE

Backend Developer

Thelathin Group Ltd

08/2024 - Present Remote

- Design, develop, and maintain server-side applications using Node.js, Python, and Java
- Implement RESTful APIs for data exchange between the front end and back end
- Optimize server performance and ensure scalability and reliability
- Collaborate with front-end developers to integrate user-facing elements with server-side logic
- Manage and maintain database systems, ensuring data integrity and security
- Troubleshoot and debug applications to ensure optimal functionality
- Participate in code reviews and provide constructive feedback to team members
- Stay updated with the latest industry trends and technologies to improve development practices

Full Stack Developer

Usalama Technology Limited

05/2023 - 04/2024 Nairobi, Kenya

- Developed and maintained full-stack web applications using HTML, CSS, JavaScript, and server-side technologies
- Implemented new features and improved existing functionalities based on user feedback and business requirements
- Collaborated with UI/UX designers to ensure seamless integration of front-end components with back-end logic
- Conducted code reviews and provided feedback to junior developers
- Participated in the entire software development life cycle, including design, coding, testing, and deployment
- Assisted in troubleshooting and debugging issues in production and staging environments
- Worked with database management systems to ensure data integrity and optimized performance

SUMMARY

I am a highly skilled Full Stack Developer with 2 years of experience in designing, implementing, and maintaining web applications. Proficient in both front-end and back-end development, with a strong foundation in HTML, CSS, JavaScript, and server-side programming languages. Experienced in database management and testing methodologies. I am adept at collaborating with cross-functional teams to deliver high-quality solutions.

SKILLS

Angular

CSS

Data Entry

Database management

Debugging

Django

Flask

Front-end

Github

HTML

Java

Javascript

Php Laravel

MongoDB

MySQL

Next.js

Node.js

NoSql

Postgresql

Python

React.js

Responsive Design Principles

Restful APIs

Ruby

Sass

Vue.js

PROJECTS

Personal Portfolio Website

Developed a personal portfolio website using HTML, CSS, and JavaScript, showcasing my skills, projects, and contact information.

E-commerce Platform

Built a fully functional E-commerce website with product listings, shopping cart functionality, and user authentication.

Weather App

Created a responsive weather application that provides real-time weather updates for any city using a public API.

Movie Recommendation App

Developed a movie recommendation app that suggests movies based on user preferences, with integrated trailers and reviews.
